Al-Hasaka, Syria

The board of directors of Ashour Foundation for Relief and Development would like to extend a thank you note to all the charitable and humanitarian organizations, and in particular the Restore Nineveh Now Foundation, that have lent a helping hand with great dedication and sincerity to our foundation in its efforts to alleviate the suffering and challenges that our Assyrian nation is currently facing in these difficult times. We greatly appreciate the strong support our foundation has received in the past few years, throughout the Syrian crisis and especially after the bloody and horrific attacks on Khabur villages and towns.

We promise all the different organizations that have supported our foundation that we will do our utmost to deliver assistance to all those that need it and we will also increase our efforts to assist our Assyrian nation. Our primary objective is to help our nation and ease its suffering in any way we can and everywhere the foundation has presence.

President of the Board of Directors

Ashour Foundation for Relief and Development
